

Community Impact Report FY23 Annual Review

At the heart of our LDI family of businesses is a belief in our ability to make lives better through support of our communities. Through volunteerism and philanthropy, we support causes primarily where our employees live and work.

Leveling the playing field for kids

To support school learning success, this year, we focused on youth mental health and well-being. We achieved this through various initiatives, including creating awareness through our LDI Cares Choice Giving campaign and providing grants to nonprofit mental health partners. Additionally, we assembled well-being kits for 3,500 kids, which not only support learning but also promote mental health and wellness in our communities.
